SNAPCHAT :-

Snapchat Method

It's easier to "prove" that you're real in snapchat. Because everyone thinks you are real since you upload multiple photos per day from fakecam, if it's a snap, it has to be live right? Well, take advantage of that. Use it to gain buyers, the sugar daddies. Personally, snapchat is one of the greatest ewhoring method, and most used (kik is no more profitable because not much of people are there anymore and mostly people are retarded, if you have time i recommend doing both, otherwise just stick with snapchat

The only thing you need is a good pack, with a lot of normal pics, pics from google, and good traffic.

Posting daily snaps on your story, makes you more "real". And then once you gain enough exposure start selling. The question is how much is enough ? well after you get 100-200ads you should start selling it , before you sell don't forget to post alot of live teases on your stories so people know you are a real active girl, i recommend posting 1-3 snap per day and half teasing photos, once you know you have enough audience just post a super teasing image and write " going to shoot something nice for my snapchat premium" and on next snap post "if you are interested to buy, contact me"

Tips :-

- Upload 1-3 snap daily to avoid getting messages like " are you even real" post random stuff like a real girl do , if you don't know much ? just follow few girls on snapchat and see how they upload stuff , mostly upload selfies and photo with random girl or food or cat photos If you're pack don't have food or cat photos , just download from google , you can download beach photos too so it look like you're travelling bring more traffic
- post daily activities on your snapchat will foods and other activities like road trip or swimming , you can use google for such images , the trick is to make it real ,so later you can get lots of sale
- Get Yourself a Pack With 100-200 normal photos and 200+ Nudes and semi nudes

How to Get Traffic From Tinder ?

Well Tinder is one of the HQ traffic you might have heard, here are some tips to get as much as traffic as you can from tinder

> Get Yourself A Number Which Never Been Used On Tinder

Website i Recommend :- <https://smspool.net/> ,
<https://www.textverified.com/Buy/#calc>

> use bluestack or other android emulator which support tinders or you can use Rooted android phone , just change your device id , imei id every time you make new tinder account, on bluestack you can just click on "new instances"

> don't put your username directly on tinder like " hey here is my snapchat: xxx" , instead write a nice bio and "write something am not much active here you can ping me on my S.C :- xx"

> don't use same picture of girl every time, if you do just change some pixel of that image in paint or online tools like :- <https://www.fotor.com/app.html#/editor/basic>

> Don't Like or swipe anyone in your first 48hours

> don't buy boost for first 24-48hours

For Computers you can use (less efficient) :-

You need a Vpn and "Location Guard " [Extension](#) to spoof your location to usa or uk (if you're already in usa , uk you can skip the step)

> Signup For Tinder and Feel the Bio Like a real Girl You can search Some Nice Bio line of tinder from google To make it Look more legit

PRO TIP :- IF YOU WANT TO WIN SNAPCHAT, JUST USE TINDER AND REDDIT AND BE ACTIVE ON MY DISCORD SERVER

Ewhoring Requirements :-

1. A Email Account (Gmail , Yahoo , any, it doesn't matter) .

Tip :- Make an Email with email address like am21yearoldqueen@Gmail.com ,instead of making it with a single girl name. Because you have to switch your whore girl pack & photo, in other words you have to be posing with different girls names. So , It will save you the trouble to make new Gmail and PayPal every time you change your girl name/identity)

2. A Registered PayPal Account with the Gmail you created in 1 step, Only If you want to use PayPal.

3. A VPN

(To hide your filthy asses) (recommended not required)

4. Multiple Ewhoring Packs (Check Hackforum's E-Whoring Section for latest packs.)

5. Bluestack Android Emulator.

Setting up your E-Whore

Now, this one is quite simple, you only need couples of details for this which I had listed below:

Name

Choose a name that sounds sexier and age. You can either come up on your own or can do a Google search to find some. All men do find at least one name more attractive than others no matter how bad it sounds to you. Remember, you want a name that will attract MOST men. For my first E-Whore I chose "Sarah" which lured men easily.

18+ Age Obviously, this depends on what your model looks like; ideally you should go for a lower number that is still above the legal limits i.e. 18 for most of the world. I usually choose between 22-25 for my e-whores because of the following reasons:

- a) The number is legal and for some countries the age of adult-hood is 21.
- b) Men won't feel morally wrong buying from you if your age is appropriate, choosing an age like 18 may incite the ethics in some men and make them feel uncomfortable from buying from you.

Nationality I recommend choosing somewhere you are from that is a FIRST WORLD COUNTRY.

One main reason for this is because you are familiar with the country in two ways:

- a) You are familiar with the country's general information and thus if a potential buyer from that country asks you some questions to verify you're real (which does happen) you have a strong answer, of course you can always Google it but 1st the option is clearly more effective.
- b) You are familiar with the regional dialect, again if a potential buyer from the country you are pretending to be from notices you speak differently or use different words they may be suspicious and believe you're a liar which is never good.

Now, I know what you're thinking, "Oh cyber, what if they get turned off when they find out I'm from a different country than them?". Well answer is, they do not care, very few men actually care if you're from a different country from them and it doesn't turn them off, in fact they may

be more excited since you're "exotic".

Cup Size I know, you may ask "Cyber, I'm not a female, how the hell do I find out the cup size of my model, and

why the hell does it even matter?" This matters because this again is a form of verification and mainly a

source of turning on a guy. Many potential buyers will ask this question and if you have a clear determined response they will gain trust in you. Some people suggest to send them a picture of a bra and ask them to guess, which is bullshit just don't do it. Now the awkward part, how do you find out what cup size your model is? Well, the easiest way of course is pull up a picture of your model, preferably nude and one where her tits aren't at an angle. On Google search something like "Bra size chart" and well...compare, it really isn't that hard and if you're off a bit, Guys don't care because they can't tell accurately as well from just a picture. AddressGo to fakenamgenerator.com, filter to your country and take an address you like. This will be needed for setting up various accounts.

Note: Make PayPal with Same Email And Name & Address on Canadian PayPal (Because it won't ask for any verification there.

How to Talk With Potentials Buyers

Social Engineering is the art of manipulating people in your favor. Getting out of every tight situation, coming up with straight up answers on things, influencing the them, making them hornier, making them believing you enough to throw money on you. This can't be taught, this must be learned as it is more of the skill then the knowledge, and it comes with the practice. Talk like a girl, don't overreact like a kid, talk confidently and also you don't need to put xxx in end of every reply.

How to Look More Authentic ?

Make Multiple Social Media Account with same name and model , Like twitter and Instagram Grow it or buy some fake Cheap Followers to look legit , so incase

someone say " you can be some guy ? or maybe scammer" then just show them your twitter or instagram tell them you're a famous local model bla bla bla

#Extra Important Tips to Avoid Time Wasters

Anyone who is less than 19 year old are most probably the Timewasters Anyone asking for preview just blocks him.

Anyone interested in trade (i.e. nude for nude), block him as well.

Indian, Arabic, Chinese, or men of other third world countries won't buy.

Anyone with Abs or dick Pic in their profile photo are mostly timewaster.

Guy who tell you that they are ass guy, pussy guy or boobs guys, just fucking ignore them.

KIK Method

The KIK method, the method everyone is using right now. In the Use of this method traffic is the most important factor for you to actually earn something.

Create a profile on kik with nice profile picture of your e-whore pack, put your names on some traffic sites, and wait for the flood of desperate guys hungry for nudes. You're will be going to encounter a lot of timewasters, don't put your time on it block and remove, remember my tips.

Look for the big fishes. The "Sugar Daddies". If you find one of them, you're set. They will give you money whenever you want it, or when they want ...

They most likely will ask for a preview before buying, don't send nude (never send nudes for free) as

stated above. Send a pic that shows most of the skin, no boobs, no vaggy. Cover them up; send one in

a sexy bikini or covering everything with your arm. Make them want you, Make them need you.

Tip#2 On new snapchat don't start selling on your first day & when you adverting it

Tip#3 How To Avoid Meetups :- okey so you gonna get lots of messages like " hey I don't pay for nudes I want real sex", just tell them you're not a dirty whore who do sex with everyone , tell them you're only have sex with your one lucky premium customer every month, he gonna ask how can I be the lucky one ? tell them to buy your premium snapchat and explain you choose 1 lucky winner from your premium customer list and have sex with them for free whole day/night , upsell them if they seem interested af ,, to increase the conversation just post 1 video of your girl having sex with a guy and tell them he was the winner lol , win win

Tip #4 How to Milk Them again and again , most of you guys are not milking your customers which you should, I mean it's not like once he paid 50\$ for your premium and he's done, no no you have to earn atleast 400-500\$ each guy no matter what , aa guys don't scam or blackmail tho , but yeh how to milk them again ? well after they buy your premium just try to upsell them right that moment with like , hey I have a exsulative image of me having blab la bla you want that video ? it's just 50\$ and am gonna sell it to only 5 members (remember give this offer after he watched your premium story) he gonna tell you his fetishes and just see if your model have his kinda stuff and sell him again and again (after a week breaks ofcourse)

Instagram Method

Yeh this is what instagram can do to your selly account

This method is still new and unsaturated and you can use it to make hell a lots of money, the key here is to find a pack with lots and lots of non-nudes selfies or semi nudes selfies ,you can search google for Instagram traffic and can buy fake Instagram likes & Followers to give your Instagram a boost, later you can cross promote your Kik & Snapchat on Your instagram profile
More :- You can get a pack with lots of selfies make that instagram real as possible by posting multiple selfies and post throughout the day

How to Use Instagram

Don't underestimate instagram potential it can be easiest way to earn 500-1000\$ a day
Make instagram on sexy girl name ,make that account legit , by daily uploading photos and stories (in proper manner) should be in timely manners too (like good night and gud morning pics or dinner or lunch photos stuff like that)

Don't don't don't tell anyone you selling until you reach a good amount of followers like 7-10k
Yeh use Autobuy like selly or paypal.me link to deliver nudes or premium Make sure your girl have lots of photos of videos (use them properly)

Now what ? fuck earn money \$\$\$ (don't forget to give some nice cut to your master CyberError :P)

How to Get Traffic to Your Instagram

Use hashtags. The best way to generate exposure and get more engagement is to use hashtags on Instagram. Find hashtags relevant to your business or industry. Don't use too many – I recommend 5-10 per post. And mix in a variety of popular hashtags as

How to look more real in instagram ?

\$\$\$\$\$\$\$ FEW MORE GOLDEN TIPS \$\$\$\$\$\$

Always give priority to old guys i.e. 30+ as they are the one who would buy regularly from you without wasting much of your time.

Don't ever Send Nudes as preview only semi nudes, never more than 1 single preview only if you think it's really worth it.

Mostly the Customer who buy nudes are from 1st world countries,

My customers were mostly from USA, Germany, Italy, Australia.

Don't waste too much time on a single person as time is money (Max 10 min each customers). Use Selly or other auto buy websites if you accept PayPal

Always check your funds before giving out Nudes, because they might send you fake screenshot of payment.

Use Photoshop for Writing on paper with "Handwritten Fonts", which is required here and there for verification purposes.

Use double dipping method for rich stupid men, which just mean charging twice for the same by stating/faking that you haven't received the payment, use inspect element in chrome to create fake proofs.

Always start few lines of conversations before telling them that you're selling. Don't delete your existing customers, save their username and offer them nudes after 1-2weeks or create a new girl account and offer them nudes. Try to make a good bond with existing customers but it depends on his nature if he's super interested in you, Keep selling him nudes and later after gaining a bit of trust try to get Airplane ticket from him (tell me you'll come over and fuck him).

Always offer multiple Nudes packages option such as 20\$ for 30 nudes, 35\$ for 40 nudes + 1 vids and 50\$ for 50 nudes + 2 vids and 15mint sexting.

Best Time to E-Whore is when its Morning and Night in USA, Trust me.
